

ARIMITSU

Don't deny yourself the opportunity of a quieter and more efficient operation. **UPGRADE** to Arimitsu Pumps on your equipment. The #1 selling Car Wash pump in Japan.

Arimitsu Leads the Car Wash Industry with Simplicity and Efficiency.

Try this simple test of Efficiency:

Rotate the crankshaft of your new Arimitsu pump. You will find that little effort is required to rotate the shaft of your new pump when compared to other pumps. The drag of other pumps can come from bound up power ends and hard seals – all this robs you of performance and money.

Owners with Arimitsu Pumps report:

- Lower energy consumption
- More "punch" at the wand
- Quieter equipment rooms
- Lower service bills
- Fewer repairs

Additional Features:

- Self-compensating high pressure seals extend seal life
- Manifold designed and machined to maximize life
- Ease of maintenance without special, unique tools

Efficiency: Turn the Shaft with Ease, by Hand

Simplicity: No Weird Seals • No Special Tools

- Electricity
- Service
- Parts

Model 313

Model 516

Upgrade your existing equipment with convenient Upgrade kits.

Each Kit includes: Pump, Rails to fit 5CP/310 stands, Hub, Key, 1-Groove Pulley
