

The New
Quiet Kleen Pump Stand

Experiencing noisy equipment rooms, expensive repairs, or looking to try something new?

Don't deny yourself the opportunity of a quieter and more efficient operation. **UPGRADE** to Arimitsu Pumps on your equipment. The #1 selling Car Wash pump in Japan.

Why ask for Arimitsu Pumps:

- Forged brass manifolds for strength and compact size that are machined to optimize fluid flow and decrease erosion.
- Slide-in seal cases with self-compensating high pressure seals. No special tools. No weird seals.
- Low pressure seals and inlet valves designed for suction minimizes cavitation.
- Specially-formulated solid ceramic plungers and unique retainer system allows longer dry running without damage from thermal shock.
- Stainless steel valves designed for the rigors of Car Wash.
- Zero clearance, non-corroding exclusionary seal provides an added barrier against fluid from entering crankcase.
- Greater efficiency and better design result in a quieter pump and equipment room and lower utility expenses.

***Also available on new VFD pump stands.**
